On April 22, 2025, OLG will begin ticket sales for the first PowerBucks Watch ‘n Win game.

Soft Launch Date: March 25, 2025

Hard Launch Date: April 22, 2025

Terminal Software Version No: 135 i634

Game Highlights

PowerBucks Watch ‘n Win is a \$3.00 ticket that includes an Instant Win component and Nightly Draw component.
The Instant Win component includes a Progressive Powerbucks Jackpot that starts at \$1,000,000 and grows until it is won.
The Progressive Jackpot is multi-jurisdictional and is linked to OLG Lottery Retailers as well as participating iCasino games and Land Based Gaming sites across Canada.
Overall odds of winning any prize are 1 in 2.5. The overall odds of winning the PowerBucks Progressive Jackpot are 1 in 25,000,000.
The game will launch with a Wheel of Fortune Ruby Riches theme. There is potential for the game to change themes or add additional themes in the future.
The PowerBucks Progressive Jackpot is owned and managed by IGT.
OLG is the first lottery organization in the world to incorporate the Powerbucks Progressive Jackpot into a retail lottery game.

Commissions

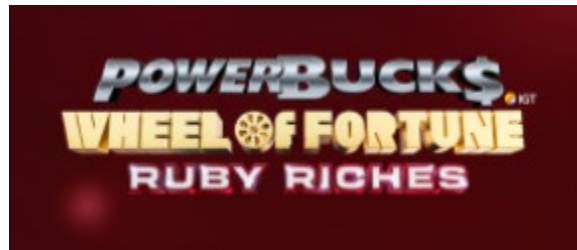

- No change: 5% commission and 2% redemption is paid to the retailer.
- Bonus Commission is \$1,000 for a PowerBucks Progressive Jackpot and \$500.00 Nightly Draw top prize (\$100,000)
- Seller's Bonus commission will be processed manually as per current process.

Draw Process

The Nightly Draw will be conducted using RNG (Random Number Generator). These draws will follow a similar process as the other Watch 'n Win games including sales shutdown, winning number generation and winning share/prize structure calculations.

Themes

The game will be launching with the theme "Ruby Riches Wheel of Fortune" under the umbrella of the Powerbucks Watch 'n Win game. There is potential in the future to change the theme of the game **OR** add additional themes. This would allow the customer to choose what theme of Powerbucks Watch 'n Win they would like to play. The game mechanics would stay the same – only the visual components on the CDU and the logo would change.

Ticket Cancels

As with all other Watch 'n Win products, retailers cannot cancel PowerBucks Watch 'n Win tickets. In rare circumstances, retailers can call Customer Care to have the terminal enabled for cancellation. This should **only be done if necessary**.

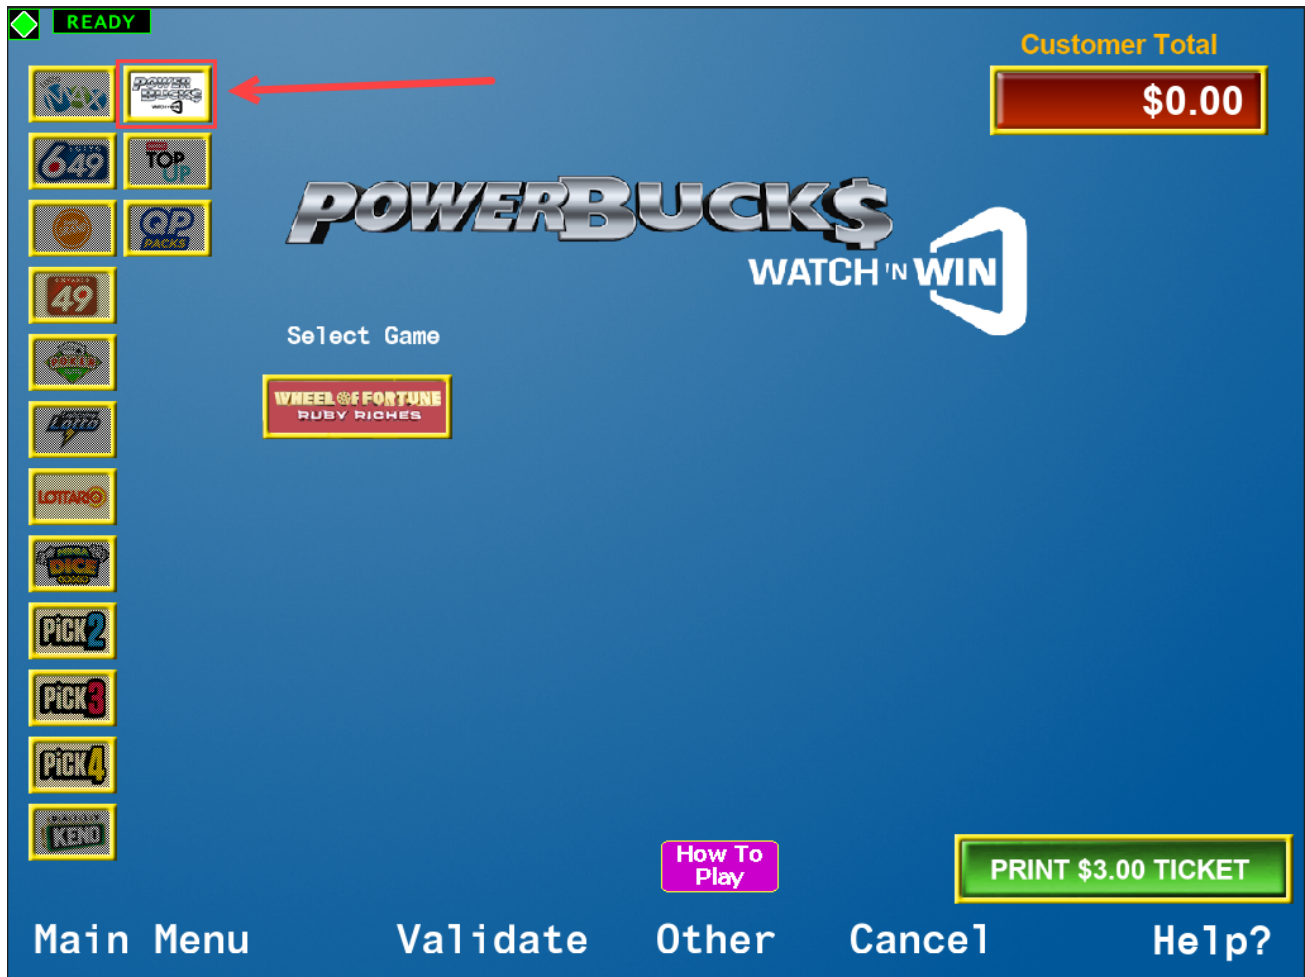

Terminal Changes

RDU

This is a Quick Pick game only and is a “Pay Before You Play” game. A pop up will appear on the terminal to advise the retailer to collect payment prior to making the ticket.

The PowerBucks Watch 'n Win button will be located on the Quick Pick screen, at the top of the second row, as shown below.

CDU

There are some changes to the CDU screen placements. PowerBucks will now be in the space Lightning Lotto currently holds. Poker Lotto and Lightning Lotto will be sharing the space in the bottom right, rotating every 7 seconds.

PowerBucks Progressive Jackpot Wins

When a customer lands on the “PowerBucks” sector of the wheel and wins the progressive jackpot, the winning amount is NOT IMMEDIATELY VERIFIED. Unlike other Watch ‘n Win games – the winning amount will **NOT** be printed on the ticket. Because this jackpot is owned and managed by IGT, and because this jackpot is shared through other channels and locations across Canada, the winning amount must be confirmed and verified by IGT before we can provide the total amount to the customer.

The messaging to the customer is that the win amount is “**1 MILLION OR MORE**” One million dollars is the base amount of every progressive jackpot. Until the amount is confirmed, the customer will know they have won *at least* that amount.

The jackpot is advertised on the CDU with the word ‘estimate’ for this reason.

A winning jackpot ticket will look like this:

At the time of the win, the customer will be provided further instructions when Customer Care calls the store and speaks to them. The Big Win scripts will reflect the changes for this game.

Big Win Process Changes

Because the progressive jackpot winning amount is not known at the time of win, the Big Win process has changed for this game only. The Big Win audio will play, and the store will receive a call from Customer Care. When the win is approved, there will be **NO SECOND VALIDATION**. If approved, the ticket is returned to the customer and is on hold. The customer will be advised that the Prize Centre will be contacting them to set up an appointment to attend in person to claim their winning amount.

IGT has up to 72 hours to confirm the winning amount. However, when the winning amount is updated in OLG's back end, the customer will not have access to see that amount on the ticket checker. The ticket will be on hold – and will remain on hold - until they claim the prize.

PowerBucks Progressive Jackpot Win Notifications

Terminal Notification

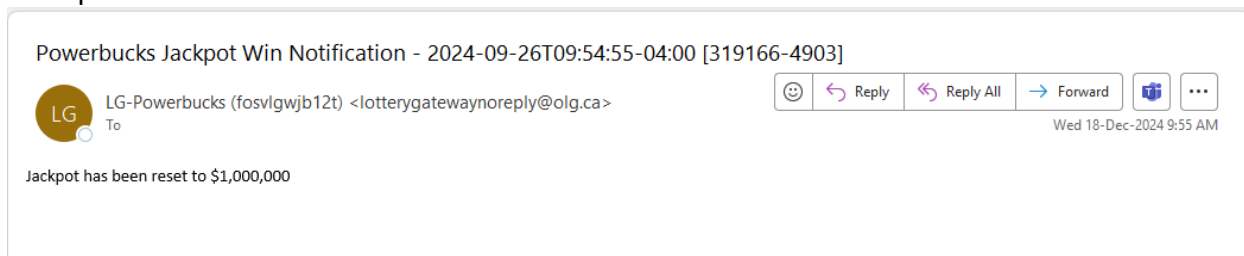

When a PowerBucks Progressive Jackpot is won *anywhere* (OLG Retail, Land Based Game or iCasino) the jackpot automatically resets to \$1,000,000. All OLG terminals will receive a pop up advising that the jackpot has been won and has been reset. The notification will include the date and time of win, and the retailer must hit “OK” to clear the message.

Internal Email Notification

When a PowerBucks Progressive Jackpot is won *anywhere* (OLG Retail, Land Based Game or iCasino) an email will be distributed to advise specified OLG internal staff. This distribution list is titled “PowerBucks Jackpot Win” and the recipients include Customer Care Player Managers, Customer Care Retail Managers, Customer Care Retail Inbound, Customer Care Senior Support and the Regional Draws Escalation team. This email is an “FYI” only and no action is required.

Example from test environment:

If you have any questions please contact Sara Caughill or Emilio Bruni for further assistance.
