OLG is the first lottery jurisdiction in Canada to introduce this wide-area progressive jackpot into a lottery game.

In addition, with the WHEEL OF FORTUNE® LOTTO nightly draw, players matched the LOTTO words printed on their ticket to the Winning Words. For POWERBUCKS WHEEL OF FORTUNE, players will match the LOTTO numbers on their ticket to the winning numbers drawn.

The final WHEEL OF FORTUNE® LOTTO draw took place on Monday, July 22, 2024. At that time, OLG advised we are always looking at ways to optimize our lottery game offering with inventive new products. The introduction of POWERBUCKS WHEEL OF FORTUNE does just that.

## Key Messages/Q&A

The spin is animated on the Customer Display Unit. If the pointer on the wheel stops on a prize, you've won that prize.

This Instant Win prize area on the printed ticket also features an image of the prize wheel and the associated prize.

### **27. I thought I saw the pointer on the prize wheel stop at one amount in the video, but my ticket validated for a different amount. How do I know what my prize is?**

The spinning of the wheel is an animation for entertainment purposes only and has no impact on the determination of the instant outcome as determined by the RNG. In the event of any discrepancy, the Instant Prize as determined by RNG and recorded in OLG's on-line system governs.

### **28. There was an AMBER Alert on the Customer Display Unit when I purchased my ticket, and I didn't see an Instant video. How do I know if I won an Instant prize?**

OLG actively participates in Ontario's AMBER Alert child safety program. AMBER Alerts are urgent messages issued by police when a child has been abducted. OLG uses its network of approximately 10,000 lottery terminals to broadcast AMBER Alerts on the terminal customer display screens in these emergency circumstances.

When there's an AMBER Alert, Watch 'N Win games' videos do not play on the Customer Display Unit because the screen is showing details of the missing child. Your ticket's Instant Win outcome, as determined by RNG, will be printed on your ticket and recorded in OLG's on-line system to allow that ticket to be validated through the lottery terminal.

Please note, the spinning of the wheel is an animation for entertainment purposes only and has no impact on the determination of the instant outcome as determined by the RNG.

The POWERBUCKS Progressive Jackpot starts at \$1 Million and grows until it is won. There is no cap on how large the jackpot can grow.

**32. How do I know what the POWERBUCKS Progressive Jackpot amount is at any time?**

The POWERBUCKS Progressive Jackpot starts at \$1 Million and grows until it is won. An estimated jackpot amount is displayed on the customer display unit and digital menu boards at retail, and on the POWERBUCKS WHEEL OF FORTUNE pages on OLG.ca and the OLG App. The estimated Jackpot amount is refreshed frequently and whenever the Jackpot is won.

**33. Why is the POWERBUCKS Progressive Jackpot amount not shown on the ticket?**

The POWERBUCKS Progressive Jackpot changes with ongoing play across multiple games within Canada and can be won at any time. Given this, and to ensure full accuracy and transparency, a Progressive Jackpot winning ticket does not display a winning amount, nor is the player provided with the amount won until fully verified by IGT.

When a progressive jackpot win occurs, it triggers a Big Win Freeze, which will allow OLG to discuss the necessary information related to the verification process with the player and provide next steps. All POWERBUCKS WHEEL OF FORTUNE Progressive Jackpot wins are \$1 million or more.

**34. Why was the final amount of the POWERBUCKS Progressive Jackpot different than what was shown on the Customer Display Unit.**

estimate only. To ensure full accuracy and transparency, the player is provided with the final amount won only after it is fully verified by IGT.

**35. Is it possible for two (or more) POWERBUCKS transactions to win the Progressive Jackpot at the same time?**

The POWERBUCKS Progressive Jackpot changes with ongoing play across multiple games within Canada and can be won at any time.

There is a small chance there could be more than one win from multiple sources within a short window of time. However, each POWERBUCKS Progressive Jackpot purchase is entered into a queue with the request time logged in IGT's system. As no two transactions are at the **exact** same time, IGT will verify the sequence of transactions, and the first transaction will be determined to be the POWERBUCKS Progressive Jackpot winner, with the subsequent transaction awarded the minimum \$1 Million base amount.

Given this, the jackpot amount displayed on the CDU is an estimate only. To ensure full accuracy and transparency, the player is provided with the final amount won only after it is fully verified by IGT.
